## **DETAILED ACTION**

### ***Continued Examination Under 37 CFR 1.114***

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after allowance or after an Office action under *Ex Parte Quayle*, 25 USPQ 74, 453 O.G. 213 (Comm'r Pat. 1935). Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, prosecution in this application has been reopened pursuant to 37 CFR 1.114. Applicant's submission filed on January 30, 2006 has been entered.

### ***Information Disclosure Statement***

2. Applicants should note that the examiner did consider Serial No. 10/668,327 and cited the U.S. Patent Application Publication (i.e. 2004/0089197) of that serial no. in the attached Notice of References Cited since there was no IDS (i.e. form 1449) for the examiner to sign indicating that the reference was considered.

## **REASONS FOR ALLOWANCE**

3. The following is an examiner's statement of reasons for allowance: This application teaches a method for producing an ink jet ink comprising desalting and purifying a betaine compound and then preparing an ink containing the betaine compound. The prior art of record generally teaches ink jet ink compositions containing a betaine compound but fail to teach or fairly suggest desalting and purifying the betaine

compound before it is added to the ink jet ink composition as claimed by applicants.

Accordingly, this application is allowable.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
